EBT Processing

In addition to credit, debit and check services, First American Payment Systems enables merchants to accept Electronic Benefits Transfer (EBT) cards. Most states now issue Food Stamps, WIC (Women, Infants and Children), and TANF (Temporary Assistance for Needy Families) benefits on an EBT card. Using the same equipment to process EBT as credit and debit, you can easily offer this additional payment type to your customers.

Advantages of EBT cards:

- **Easy** - Merchants accepting welfare payments can accept EBT cards
- **Convenient** - Merchants no longer have to collect and return food stamp coupons to the state government
- **Safe** - Consumers can only access their EBT account through a PIN number
- **Reliable** - EBT transactions work just like a debit transaction
- **Promotes Independence** - EBT cards look and function like a debit or credit card, which eliminates the stigma of food stamps for both customers and merchants
- **Fast** - Check out time is the same as accepting credit and debit cards

Electronic Benefits Transfer — another powerful product from First American Payment Systems!

Advantages of EBT cards:

- Easy
- Convenient
- Safe
- Reliable
- Promotes Independence
- Fast
